

```
include/multiscale  
/exception/RectangularMatFactory  
Exception.hpp
```

```
graph TD; A["include/multiscale<br>/exception/RectangularMatFactory<br>Exception.hpp"] --> B["stdexcept"]; A --> C["string"];
```

The diagram illustrates the dependencies of the file `Exception.hpp` located at `include/multiscale/exception/RectangularMatFactory`. Two blue arrows point from the bottom of the top box to the boxes labeled `stdexcept` and `string`, indicating that `Exception.hpp` includes these standard library headers.

`stdexcept`

`string`
