

multiscale::analysis::RegionDetector::changeContrastAndBrightness

```
graph LR; A[multiscale::analysis::RegionDetector::changeContrastAndBrightness] --> B[multiscale::analysis::RegionDetector::convertAlpha]; A --> C[multiscale::analysis::RegionDetector::convertBeta];
```

The diagram illustrates a function call structure. A central box on the left, labeled 'multiscale::analysis::RegionDetector::changeContrastAndBrightness', has two blue arrows pointing to two separate boxes on the right. The top box is labeled 'multiscale::analysis::RegionDetector::convertAlpha' and the bottom box is labeled 'multiscale::analysis::RegionDetector::convertBeta'.
