

multiscale::video::RectangularEntityCsvToInputFilesConverter::convert

main

```
graph RL; main --> multiscale::video::RectangularEntityCsvToInputFilesConverter::convert
```

The diagram illustrates a call graph with two nodes. On the right is a white rectangular box labeled 'main'. A dark blue arrow points from this box to the left, where a larger, gray rectangular box is located. This gray box contains the text 'multiscale::video::RectangularEntityCsvToInputFilesConverter::convert'. Both boxes have a thin black border.
