

multiscale::Geometry2D
::orthogonalLineToAnotherLine
EdgePoints

A diagram showing a call to the `orthogonalLineToAnotherLine` method of the `multiscale::Geometry2D` class. The call is represented by a grey rectangular box containing the text `multiscale::Geometry2D::orthogonalLineToAnotherLine` and `EdgePoints`. A blue arrow points from this box to another box on the right.

multiscale::Geometry2D
::isPointOnEdge

A diagram showing the result of the `isPointOnEdge` method of the `multiscale::Geometry2D` class. The result is represented by a white rectangular box containing the text `multiscale::Geometry2D::isPointOnEdge`. A blue arrow points from the box on the left to this box.
