

```
multiscale::RGBColourGenerator  
::generate
```

```
graph LR; A["multiscale::analysis  
::SimulationClusterDetector  
::outputResultsToImage"] --> B["multiscale::RGBColourGenerator  
::generate"]
```

A diagram showing a call to the `generate` method of the `multiscale::RGBColourGenerator` class. The call is initiated from the `outputResultsToImage` method of the `multiscale::analysis::SimulationClusterDetector` class. The target class and method are highlighted in a grey box, while the caller is in a white box. A blue arrow points from the caller to the target.

```
multiscale::analysis  
::SimulationClusterDetector  
::outputResultsToImage
```
