

multiscale::Geometry2D::orthogonalLineToAnotherLineEdgePoints

```
graph LR; A[multiscale::Geometry2D::orthogonalLineToAnotherLineEdgePoints] --> B[multiscale::Geometry2D::isPointOnEdge]
```

A diagram showing a call to the function `multiscale::Geometry2D::orthogonalLineToAnotherLineEdgePoints` in a grey box, with a blue arrow pointing to a white box containing `multiscale::Geometry2D::isPointOnEdge`.

multiscale::Geometry2D::isPointOnEdge
