

multiscale::MinEnclosing
TriangleFinder::updateSidesCA

```
graph LR; A[multiscale::MinEnclosing  
TriangleFinder::updateSidesCA] --> B[multiscale::MinEnclosing  
TriangleFinder::predecessor];
```

A diagram showing a call from the `updateSidesCA` method of the `multiscale::MinEnclosingTriangleFinder` class to its `predecessor` attribute. The source is in a grey box and the target is in a white box, connected by a blue arrow.
