

```
include/multiscale  
/exception/MinEnclosingTriangle  
FinderException.hpp
```

```
graph TD; A["include/multiscale<br>/exception/MinEnclosingTriangle<br>FinderException.hpp"] --> B["stdexcept"]; A --> C["string"]
```

The diagram illustrates the include paths for the header file `FinderException.hpp`. A central box at the top lists the paths: `include/multiscale`, `/exception/MinEnclosingTriangle`, and `FinderException.hpp`. Two blue arrows point from this box to two separate boxes below: `stdexcept` on the left and `string` on the right.

`stdexcept`

`string`
