

multiscale::video::

CartesianToConcentrationsConverter

::convert

main

```
graph LR; main[main] --> convert[multiscale::video::CartesianToConcentrationsConverter::convert];
```

The diagram illustrates a function call. A box on the right labeled 'main' has a blue arrow pointing to a larger box on the left. The larger box contains the text 'multiscale::video::CartesianToConcentrationsConverter::convert', which represents the function being called.
